

OUR CERTIFIED OEM EQUIVALENT PARTS

Certified Oem
Equivalent Part

Teknorot Boxes
Equivalent Part Label

Control Arm Polybag
Equivalent Part Label

The part, which is an experiment determined within the framework of the relevant regulation is manufactured with the purpose of replacing the original parts used in the assembly of a motor vehicle. The part is certified by accredited organization which is established according to examination methods of comparing to the original part.

Teknorot is one of the first companies in the automotive supplier industry of Turkey which has state-approved R&D Facility. Our R&D Facility where improvement and renovation have been carried out continuously, has received a Certificate of Equivalent for 5 parts by the studies performed about equivalent parts.
